SKILLS

- **Programming Languages** : JavaScript, Java, C#
- **Framework & Library**: React.JS, Node.js, jQuery, TypeScript
- **Databases & Tools** : MongoDB, SQL, Postman, Git, GitHub.
- **Core Concept** : Data Structure, OOP, DBMS, Digital Communication, Networking, Security Fundamentals

PROJECTS

Job Portal Application

Nov-2024 - Feb-2025

- Architected and Developed a **scalable MERN job portal** with recruiter job posting and candidate application management.
- Implemented **JWT authentication, authorization** for secure multi-role access.
- Optimized frontend performance, improving recruiter workflow efficiency by **40%**.
- Built a React **admin dashboard** for managing users, jobs, and applications with dynamic REST APIs.

Online Garage Management System

April-2024 - July-2024

- Developed a MERN - stack Online Garage Management System using React, Express for service booking and parts management.
- Implemented **JWT authentication and role-based access control** to secure customer and admin operations.
- Integrated a **dynamic booking system**, increasing customer engagement by **25%**.

Online Movie Booking Website

Dec-2023 - Feb-2024

- Built an online movie booking system using **HTML, CSS, JavaScript, and PHP** with **real-time seat selection and responsive UI**.
- Implemented an admin panel with dynamic seat-state management and **secure payment integration** for managing movies and bookings.

EDUCATION

VEER NARMAD SOUTH GUJARAT UNIVERSITY

Bachelor Of Computer Application (BCA)

July-2022 - May-2025

SDJ International College

MSc (Information Communication Technology)

June - 2025 - Expected May 2027

VNSGU, ICT Department

WORK EXPERIENCE

YAMI IT SOLUTIONS PVT LTD

React Js Intern

Sep 2024 - Feb 2025

- Developed dynamic React.js web apps with reusable components and state management for production use
- Built and integrated Node.js/Express **REST APIs with JWT authentication** and error handling middleware

Professional Engagement

Google AI Lab Event | SVNIT Surat

- Participated in **Google AI Lab at SVNIT Surat**, gaining hands-on exposure to AI and machine learning fundamentals.
- Applied AI concepts through guided workshops and practical projects.

Google Summer of Code (GSoC) 2026 | Open Source Contributor

- Contributed to **EmbeddedChat (Rocket.Chat)**, enhancing a secure communication platform designed for high-security environments.
- Contributed to **OrgInPactAI (AOSSIE)**, developing features for a Web3 and blockchain-powered impact management platform.

CERTIFICATE

Adobe India Hackathon 2025 | Participate

- **Participated in Adobe India Hackathon 2025**, gaining experience in competitive problem-solving and real-world coding challenges.
- **Cleared the first round**, demonstrating strong coding and problem-solving skills.

Advanced AI Workshop Certification | be10x

- Completed Advanced AI Workshop by be10x, gaining practical experience with **20+ AI tools**
